Morning Session: Leadership, Mentoring & Succession Planning

Creating the Future of Your Organization which has been described as “almost a religious experience.” It covers topics of vital importance to all fire service leaders from company officer to Chief of Department and includes such topics as combat (fireground) leadership, ways to improve your leadership, making leaders of those around you, establishing and maintaining credibility, facing the new assignment, giving orders, enforcing discipline.

Afternoon Session: Private Dwelling Fires

This class focuses on the most common fire in America, fires in 1 and 2 family homes, or Private Dwellings. The class includes:

- Introduction to the Scope of the Problem: Death and Injury Rates in P.D.s
- Size-Up: The 13 Point Approach
- Firefighter Survival Survey
- Fire Behavior & Ff. Survival
- Fire Attack: Hoseline Selection, Placement and Water Supply
- Search and Rescue: Vent, Enter, Isolate and Search (VEIS)

Emphasis is placed on developing tactics that can be implemented on the fireground under a variety of common, and not so common, conditions.
