## Learning From Leaders II – 2021 edition

May 13<sup>th</sup> with Chief Phil Jose – Seattle Fire

### The Art of Reading Smoke

Through dynamic teaching and the use of fire-ground video, attendees will learn the skill of reading smoke. You will learn about:

- The attributes of smoke including volume, velocity, density and color.
- Explore how those attributes will indicate fire size and fire location
- Use the system to predict fire behavior.

Improve your strategic and tactical decision-making through reading smoke.

Instructor Bio

### Tactical Decision Making

Improve your decision making under time, pressure, and uncertainty through sets and reps. Experience the pressure of first in tactical decisions. The use of first-in video and Phil's dynamic teaching create a fast-paced class to burn through sets and reps of decisions at the tip of the spear.

### Phil Jose Bio:

Phil Jose is a retired Deputy Chief of Operations and Shift Commander in Seattle Fire Department with over 31 years' experience. He teaches nationally at major national conferences including FDIC, Firehouse World and Expo. Phil is the co-author of the best-selling book "Air Management for the Fire Service", Pennwell 2008, Fire Engineering's Bread and Butter video on SCBA, Fire Engineering Handbook for Firefighter 1 and 2, with multiple articles published in Fire Engineering as well as other book and video products. Phil is the recipient of the FDIC Tom Brennan Training Achievement Award.
