Strategy & Tactics for Employee Fires

on April 13th with Captain Jesse Quinalty (Red Helmet Training)

This program utilizes basic firefighting and incident command terminology to extinguish and prevent the employee fires as a Company Officer or first level Chief Officer. The fire service spends time teaching us how to respond to fires but we usually fight more fires in the fire station than we do out in the streets.

The program will use the same size up process taught in our Strategies and Tactics courses to determine the strategy. The workshop then utilizes tactics to solve the problem with RECEO VS. The course will look closely at Preventing Employee Fires, Installing Detection and Suppression Systems, Arson Fires, Risk Assessment, Assuming or Passing Command, Command, and Control of Employee Fires and AAR.

The class is filled with case studies, employee fire training videos, and fire simulations.

Instructor Bio

Jesse Quinalty is a Master Instructor and the owner of Red Helmet Training in Southern California which houses four classrooms and a command training center.
