

Red Helmet Training Group

August 2017 Newsletter

Hi Everyone,

Thank you for reading the Red Helmet Training Group Newsletter for August 2017.

It has been a busy summer, not only with classes but with many changes that have affected our staff. Our Administrative Assistant (Christa) has moved her ailing father into her home and has tried to keep up with the demand of family and Red Helmet Training. If there is something that we have missed for you please let me know. E-mail is usually best.

There has also been a big change with myself as the owner of Red Helmet Training. The City of Upland has contracted fire services to the San Bernardino County Fire Department. I have been transferred to Station #322 in Adelanto. I am also on a new shift schedule.

This is a very large fire department with many moving parts. I am looking forward to the opportunities and the varied experiences that my new place of employment will surely provide.

We have also brought on a new intern for the classroom facility. Melvin Brown is currently enrolled in EMT school and will be graduating this month. He will be with us until he begins the Fire Academy at Crafton Hills College in September. He is very enthusiastic and loves to learn. If there is anything you need while in the classrooms and Melvin is there just seek him out.

We are also excited that we have partnered up with the Little Medical School. They teach elementary and middle age school students about the exciting field of medicine. If you are interested in this for someone you know please visit their website at <https://www.littlemedicalschool.com/ie/about-us/>
